Separate peeled clementines into individual sections. Place clementines in small microwave-safe bowl with sugar and orange juice. Blend carefully, so as not to break clementine sections apart. Heat for one minute in microwave then remove cautiously because the bowl may be hot. Allow to cool for 2-3 minutes. Toast waffle until golden brown. Top waffle with warm clementines, whipped cream, and raspberries.

A great recipe for parents and children to make together.

## PARENT TIPS

- Clementines peel easily and are seedless, making a perfect snack for children.
- Clementines can be substituted in recipes that call for other similar citrus fruits.
- Keep clementines refrigerated and they will last about a week.
- Look for clementines that have bright orange and shiny skin with a citrus-y smell.
- Generally, the smaller the clementine, the sweeter it is.
- One clementine only has 35 calories and is full of important nutrients like Vitamin C.
